19:35:14 From Nia Lewis To Everyone:

Would Transition Residential replace an area currently zoned as single/two and three family units?

19:41:24 From Abdul-Razak Zachariah (BPDA), he/him To Everyone:

Hi Nia, thank you for asking! Instead of taking out existing zoning and filling in the blank with one of these new zoning options, we'd be working with community members on identifying where they envision these options best fitting into a defined area based on future housing goals. So it wouldn't be a one-to-one replacement since there will be a lot of effort put towards talking with community on drawing the boundaries of this zoning in different parts of the commercial areas

19:44:14 From Dianna Bronchuk - ONS To Everyone:

Abdul, Taylor & team are very responsive! They have presented to a few different Rozzie places and scheduling more!

Also there is no sign at the end of Florence to warn people they are turning across a contra bike lane.

20:18:21 From Dennis Kirkpatrick To Everyone:

You can also e-mail or call Nicole England at BPD Area E5 in the Community Services office. They are responsible for enforcement. Nicole England, 617-343-4564 nicole.england@pd.boston.gov

20:19:27 From Rebecca Brink To Everyone:

dennis - if there is a place people consistently illegal park on my street (and it makes is hard to drive safely), is Nicole a good contact?

20:20:44 From Dennis Kirkpatrick To Everyone:

Yes. Illegal parking is actually a police issue. People calling 311 get on a list of things sent over. Actually BPD says to call it in to 911 because they derive their statistics for assignments from that data. It is not just for emergencies anymore.

20:22:13 From Dianna Bronchuk - ONS To Everyone:

There was a hope to have some speed humps put in in South Street before the end of the calendar year (but I am assuming weather may have stopped some of it). The project is slated for construction in Spring 2024.

20:22:17 From Kris Carter (he/him) To Everyone:

But also, BTM does most of the parking enforcement and the 311 data can be used to realign enforcement routes. The plan for meters will also lead to increased parking enforcement as BTM typically only assigns Parking Enforcement Officers to areas with meters
